

Watch HPO Concerts on your TV using Roku

Watch HPO concerts on your TV using a Roku device and a smartphone or tablet! **The most up-to-date version of the Google Chrome web browser is required.**

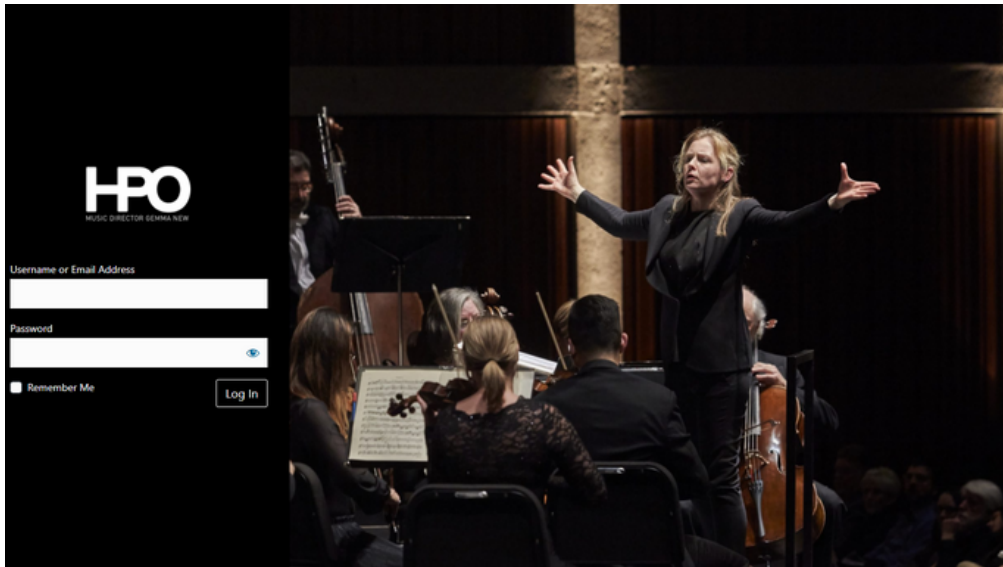

Download Google Chrome here:
www.google.com/intl/en_ca/chrome

- 1 First, make sure your Roku device is connected to the same wi-fi network as your phone or tablet. Do this on Roku from the "Settings" menu by clicking "Network" to view the wi-fi name.

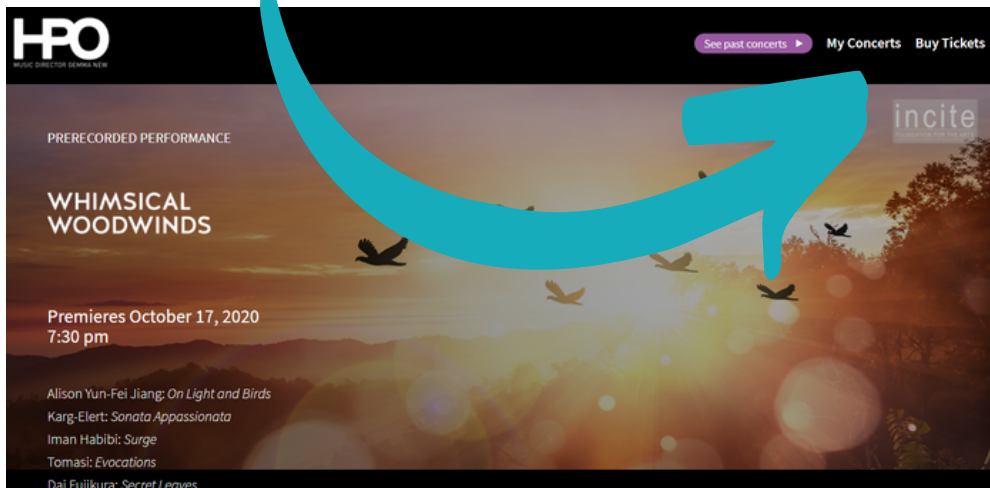

Then, find the settings app on your phone or tablet to view which network the device is connected to. Both need to be on the same wi-fi network in order to proceed.

2 On your smartphone or tablet:
visit www.broadcast.hpo.ca and log in.

3 Click "My Concerts" at the top right of the screen

4

On or within 30 days after the scheduled premiere date/time, click the concert page to view the broadcast video player below.

5

Click the "cast" symbol on the bottom right corner of the video player and select the Roku device you want to cast to from the pop up window.

Remember this requires the Google Chrome web browser and smartphone or tablet.

Please note that the casting icon will only be visible when using a mobile device, like a smart phone or tablet
